Announcement of New President by COTAPSA Board of Directors

The COTAPSA Board of Directors is pleased to welcome Cory Shankman as its newly elected President.

Cory began his career at the City of Toronto through the Toronto Urban Fellows program after completing his Ph.D. in Astrophysics. Over the last eight years at the City, he has worked in various capacities across several Divisions, including Toronto Water, Corporate Finance and in his current role as Senior Project Manager in Economic Development. Cory has been serving as the COTAPSA Treasurer since January and will continue serving in both capacities until a new Treasurer can be selected by the Board.

COTAPSA wishes to thank Andrew Waters for his years of service as President and Lorna Zappone for serving as Acting President through the transition.
